

Policy on Littering at Always Aim High Events

We at Always Aim High take the issue of littering very seriously. Our events are held in the most beautiful parts of the country, and it is imperative that everyone respects this so that our countryside can be enjoyed by and all who live and visit there.

In our efforts to minimize the effect of littering, all event marshal locations along the routes will be designated as 'litter disposal points'. We would ask all competitors to respect this rule and discard of any litter at these locations only.

We will not tolerate any form of irresponsible littering during our events, participants who are seen dropping litter at non-designated litter locations will be disqualified.

We would encourage you to recycle your litter wherever possible to further reduce your environmental impact.

Thank you for your support in keeping our beautiful countryside clean and litter free.
